He was a member of the committee of the house and senate appointed in 1897 to investigate the sinking fund commission trouble with the comptroller general and was the author of the statute which has recast all the law relative to it and under which the commission has been working smoothly ever since.

The legislative service of Mr. Stevenson has been distinguished in other lan whereby the money was obtained to complete the State house without ration, thus making posmaking public officials more strict in the discharge of their trusts. His legislative service began in 1896, and he was reelected in 1898 and again in System. 1900, on the last occasion receiving all but 175 of the votes cast in his county primary. meal and hulls, and also asking for a cheaper raton than corn.

The following prices are given in a letter from Scranton, S. C.: Corn, \$40 per ton; oats, \$45 per ton; wheat bran, \$25 per ton; cotton seed meal, \$25 per ton; rice meal, \$20 per ton. Of sourse, corn and oats are out of the question. corn and oats are out of the question as a food for horses and mules at the above prices so something cheaper must be looked for.

The analysis shows that rice meal has about the same composition as corn meal, and we have found that it is just as good for feeding pigs. We have fed it to horses with good results.

I think we are safe in saying that it may be used in place of corn, pound for pound.

If no hay or fodder is used in the ration and hulls are resorted to as roughness, some nitrogenous food, such as head or cotton seed meal, must be used bran or cotton seed meal, must be used to supply protein. Hulls may be fed without any fear of injury to the animal. Should they refuse to eat the hulls a little corn meal or bran sprinkled over the surface will help to break them to it.
